## The Meaning of Geography to Me

Both as a subject I study at school and my area of interest. I find it interesting when it comes to discovering the development of the society in various aspects as well as the nature of Earth especially about weather.

## Impact of iGeo Preparation on my Life

It really allowed me to enjoy chatting and interacting with students from other countries despite igeo 2022 is held online. It also allows me to learn geography in ways I have never contacted in, so it is really enjoyable and meaningful to me both in mentally and in knowledge .

## Suggestions for the iGeo

Obviously return to face to face as soon as possible. I would really like if i can participate in this competition while knowing others and enjoying the trip.
